DETAILED ACTION

1. This action is responsive to the application filed on October 30, 2000. Claims 1-32 are pending. Claims 1-32 are subject to restriction as outlined below. The applicant is requested to cancel non-elected claims in response to this office action.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CAR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-19, and 27-32, drawn to Computer-to-computer data modifying classified in class 709, subclass 246.

Group II, claim(s) 21-26, drawn to Network Resource Access controlling classified in class 709, subclass 229.

Group III, claim(s) 20, Computer to Computer protocol implementing classified in class 709, subclass 230.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as translating data language of a first computer into a second format of a second computer. Invention II has separate utility such resource access control. Invention III has separate utility such as computer to computer protocol implementing. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one

claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

A shortened statutory period for response to this action is set to expire **0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
